Contents

Part I Biodegradation and Bioremediation

- 1 Biochar for Effective Cleaning of Contaminated
Dumpsite Soil: A Sustainable and Cost-Effective
Remediation Technique for Developing Nations 3**
Paromita Chakraborty, Moitraiye Mukhopadhyay, R. Shruthi,
Debayan Mazumdar, Daniel Snow, and Jim Jian Wang
- 2 Scope of Nanoparticles in Environmental Toxicant Remediation 31**
Anupam Dhasmana, Swati Uniyal, Vivek Kumar, Sanjay Gupta,
Kavindra Kumar Kesari, Shafiul Haque, Mohtashim Lohani,
and Jaya Pandey
- 3 Removal of Inorganic and Organic Contaminants from
Terrestrial and Aquatic Ecosystems Through
Phytoremediation and Biosorption..... 45**
Dhananjay Kumar, Sangeeta Anand, Poonam, Jaya Tiwari,
G. C. Kisku, and Narendra Kumar
- 4 Environmental Health Hazards of Post-Methanated Distillery
Effluent and Its Biodegradation and Decolorization 73**
Sangeeta Yadav and Ram Chandra
- 5 Heavy Metal Contamination: An Alarming Threat
to Environment and Human Health 103**
Sandhya Mishra, Ram Naresh Bharagava, Nandkishor More,
Ashutosh Yadav, Surabhi Zainith, Sujata Mani, and Pankaj
Chowdhary

Part II Sustainable Agriculture

- 6 Plant Growth-Promoting Rhizobacteria: Diversity
and Applications 129**
Maya Verma, Jitendra Mishra, and Naveen Kumar Arora

7	Plausible Role of Plant Growth-Promoting Rhizobacteria in Future Climatic Scenario	175
	R. Z. Sayyed, N. Ilyas, B. Tabassum, A. Hashem, E. F. Abd_Allah, and H. P. Jadhav	
8	Plant Growth-Promoting Microbes: Contribution to Stress Management in Plant Hosts	199
	Krishna Sundari Sattiraju, Srishti Kotiyal, Asmita Arora, and Mahima Maheshwari	
9	Chemistry, Therapeutic Attributes, and Biological Activities of <i>Dillenia indica</i> Linn	237
	Ashok K. Singh and Sudipta Saha	
 Part III Aquatics and Wastewater Treatment		
10	Implication of Algal Microbiology for Wastewater Treatment and Bioenergy Production	263
	Vinayak V. Pathak, Shamshad Ahmad, and Richa Kothari	
11	Efficiency of Constructed Wetland Microcosms (CWMs) for the Treatment of Domestic Wastewater Using Aquatic Macrophytes	287
	Saroj Kumar and Venkatesh Dutta	
12	Modelling Water Temperature's Sensitivity to Atmospheric Warming and River Flow	309
	Shaik Rehana, Francisco Munoz-Arriola, Daniel A. Rico, and Shannon L. Bartelt-Hunt	
 Part IV Other Aspects		
13	Thermophiles vs. Psychrophiles: Cues from Microbes for Sustainable Industries	323
	Monica Sharma	
14	Role of Solar Energy Applications for Environmental Sustainability	341
	Atin K. Pathak, Kapil Chopra, Har Mohan Singh, V. V. Tyagi, Richa Kothari, Sanjeev Anand, and A. K. Pandey	
15	Natural Sensitizers and Their Applications in Dye-Sensitized Solar Cell	375
	A. K. Pandey, Muhammad Shakeel Ahmad, Nasrudin Abd Rahim, V. V. Tyagi, and R. Saidur	

About the Editors

Prof. (Dr.) Ranbir Chander Sobti is former Vice Chancellor of Babasaheb Bhimrao Ambedkar University, Lucknow (UP), India, and Panjab University, Chandigarh, India. He has been proactively involved in cancer biology, with a focus on finding out novel tumour markers for cancer detection, and is currently engaged in the development of whole organ by tissue/organ culture through custom designed decellularization protocol. His intense scientific contributions have resulted in around 300 high-impact research publications, more than 40 books and 23 sponsored research projects. He is fellow of leading national and international academies of science and is associated with many other academic associations and institutions in the domain of higher education and research in India and abroad and was General President of the Indian Science Congress Association in 2014. He has been bestowed with a large number of prestigious awards and medals including the INSA Young Scientist Medal (1978), UGC Career Research Award, Punjab Rattan Award and JC Bose Oration Award. The Government of India bestowed upon him the honour of “Padma Shri” in 2009 by way of rightfully acknowledging his great contributions to higher education in India. On 2 July 2016, he was also honoured with “Bharat Gaurav” Lifetime Achievement Award at the House of Commons, British Parliament, London, UK.

Prof. (Dr.) Naveen Kumar Arora, PhD in Microbiology Professor in the Department of Environmental Science, Babasaheb Bhimrao Ambedkar University (a Central University), Lucknow, Uttar Pradesh, India, is a renowned researcher in the field of Environmental Microbiology and Biotechnology. His specific area of research is rhizosphere biology and plant growth-promoting rhizobacteria (PGPR). He has more than 60 research papers published in premium international journals and several articles published in magazines and dailies. He is editor of 11 books, published by Springer, and member of several national and international societies, in editorial board of 4 journals, and reviewer of several international journals. He is also the Editor-in-Chief of the journal *Environmental Sustainability* published by Springer Nature. He has delivered lectures in conferences and seminars around the globe. He has been advisor to 118 postgraduate and 9 doctoral students. He has also received awards for excellence in research by the Honourable Governor of Uttar Pradesh and Asian PGPR Society. Although an academician and researcher by profession, he has a huge obsession for the wildlife and its conservation and has authored a book, *Splendid Wilds*. He is President of Society for Conservation of Wildlife and has a dedicated website www.naveenarora.co.in for the cause of wildlife and environment conservation. He is also General Secretary of the Society for Environmental Sustainability.

Dr. Richa Kothari, M.Phil. and Ph.D. in Energy and Environment, is working as an Associate Professor at the Department of Environmental Sciences, Central University of Jammu, Samba, Jammu (J&K), India. She is awarded by one of the prestigious Indo-US Science and Technology Forum (IUSSTF) for Water Advanced Research and Innovation Fellowship Program in the year 2016 at the Robert B. Daugherty Water for Food Institute, University of Nebraska-Lincoln, Lincoln, NE, USA. She has guided more than 30 MSc and MTech students and 2 doctoral students. She has more than 60 articles in reputed peer-reviewed international and national journals with high-impact factors and chapters in edited books. She is also a reviewer of well-reputed Scopus journals. She is part of editorial teams of many national and international journals. Her research interests are bioenergy production approaches and low-cost wastewater treatment technologies.
